Quality declaration

Dear customer,

TECE pipe systems are produced according to national and international norms and standards. Thus even the **TECE SLQ PE-Xa 16x2.0mm and 20x2.0 mm** made of cross linked polyethylene is classified to DIN 15875-2 Class 5/6bar. The pipes are continuously SLQ quality monitored and tested. The pipes are oxygen tight according to DIN 4726.

The pipe system have also passed the complete Thermal Cycling Test according to DIN EN ISO 15875-5 and DIN EN ISO 19893.

Our production facilities are certified according to the ISO 9001:2015 quality standard that is recognized worldwide.

We hereby declare that during the development, production and inspection processes our pipe systems meet all technically relevant requirements and are monitored in the framework of our quality management system.

Best regards,

TECE GmbH
